

Update May 16th – COVID-19 Precautions

Along with other Denver Metro Area counties, Denver County Public Health rescinded its countywide mask order effective May 16th. Below is a summary of how the Public Health Orders (last update Sunday, May 16th, 2021) from the City of Denver impact golf operations at Green Valley Ranch Golf Club.

We are currently at Level Clear. This means:

- Golf Shop will operate up to 100% capacity.
- Ebert's Terrace will operate at 100% capacity.
- Any fully vaccinated individual may go without a mask both indoors and outdoors in and around all GVR buildings.
- Unvaccinated people are encouraged, but not required, to continue wearing masks in all public indoor spaces where members of different households are present.
- Please reference <https://covid19.colorado.gov/mask-guidance> for further guidance.
- Please support each other's decision to continue wearing a mask if that is your preference.
- Frequent sanitizing of all high touch areas is performed throughout the day.
- Frequent hand washing is advised, and all restrooms are equipped with hand sanitizer.

Our highest priority continues to be the health and safety of all guests and staff who come to GVR, and we continue to follow health directives from the City of Denver. We appreciate your support.

We will keep you updated as changes occur and thank you for your patience.

Golf is great exercise and a fun game to play with friends. We wish everyone good health and hope to see you soon.

Thank you for your support and cooperation.
